

ETHICS OLYMPIAD SPONSORSHIP PROGRAM

We are providing sponsorship opportunities that will enable the event to flourish and grow in the future. Sponsorship will also offer benefits to sponsors.

The Ethics Olympiad seeks to instil the epistemic virtues characterised by the spirit of open questioning. Students learn how to think – and how to think well – not what to think. At the event students develop the interpersonal skills and virtues needed for civic participation in rational discussion and argument.

Much of the work goes on prior to the event as students prepare for an Olympiad with their coaches. Each participating school enters a team or two teams of capable students to represent their school. Once registered we provide them with training kits and ethical cases which form the focus on the day. Tertiary based judges, often Ph.D. philosophy lecturers or students, are trained in the lead up to the event. These judges award scores based on clear, reasonable, and collaborative thinking during each heat. At the end of each Olympiad Gold, Silver and Bronze medals are awarded to successful teams.

Ethics Olympiads attract students that are interested in philosophical discourse and the event itself identifies excellence in the area. Success at regional events qualifies students for the national event where the top three schools from each state, territory and region participate in a final. The 2021 Senior students final in July will involve at least 30 outstanding teams from throughout Australasia.

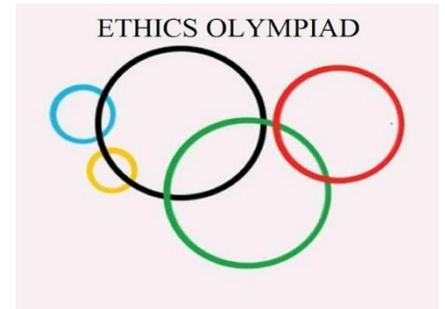

Tertiary Institutions

With the loss of International students, universities need to attract quality local candidates for all their courses but most importantly in the Humanities. The Ethics Olympiads has a proven track record with very gifted high achieving school students and so we are providing this opportunity to promote your institution and courses among a select group of Australasian young people.

The Ethics Olympiad already has an extensive network of participating schools throughout Australasia, schools interested in building philosophical skills and understanding. There are currently over 500 schools participating annually in Ethics Olympiads. This means that we have annual exposure to over 2,500 Gifted and Talented students throughout Australasia. And this number is growing daily.

We are aware that the students we are dealing with would be ideal candidates for tertiary academic humanities programs and we think that some/ perhaps many would be interested in applying to pursue study at your institution at the end of their high school years if they are made aware of the opportunities available at your institution

Ethics Olympiad Sponsorship Opportunities

1. Ethics Olympiad Community Friend, a gift minimum of \$250.00

The sponsors name will be included on the website as a sponsor.

2. Event Sponsor, a gift minimum of \$1500.00

The sponsors name will be included on all publicity associated with a regional event. This will be attractive to institutions seeking localised exposure among Gifted and Talented students. Currently 15 Ethics Olympiads are being run in the following regions, **NSW, Victoria, South Australia, Queensland, Western Australia, Tasmania, ACT, NT, North Island NZ, South Island NZ, Singapore, and Hong Kong.** So here, all participating schools in one of these regions will be made aware of the institution's association and its support for the Ethics Olympiad. Training kits, web resources and the program for the day will all include sponsors logo and a statement of thanks for supporting the day. We will also include a summary outline of what is on offer at the institution by way of a brief presentation on the day. e.g The University of Wollongong might be interested in advertising their Liberal Arts Scholarships in NSW only and therefore advertise their support at the NSW Ethics Olympiad.

3. Program Sponsor, a gift minimum of \$3,500.00.

Here we will include upfront exposure of the institution as a sponsor of the days program. Again, this will be attractive to those wanting local exposure however, as a Program Sponsor, they would have unique, named up-front exposure sponsoring the program for that day. All correspondence, training kits, web resources and the program will include sponsors logo and a statement of thanks for supporting the day. We will also include a summary outline during the day as part of a final presentation to students and teachers (Eth-letes and Coaches) briefly outlining what is on offer at the sponsoring institution.

National Sponsor, a gift minimum of \$27,000

This sponsorship will involve exposure and endorsement at all Ethics Olympiads among participating school students throughout Australasia. (See list of events in "Event Sponsor section") This would include Junior, Middle and Senior School Ethics Olympiads. (We also have some exposure in China and Canada.) National Sponsorship will identify your institution in all publicity and correspondence over three years.

4. Ethics Olympiad Assistance, an annual gift for three years.

This sponsorship will assist schools that cannot otherwise afford to participate in an Olympiad providing them with the opportunity to participate at no cost. Typically, this fee would be roughly \$950 per school. (this amount covers three years participation by a single school at a Senior High School Ethics Olympiad) This program would be managed by the Ethics Olympiad office selecting schools from applicants based on request for support and the funding would be provided to cover the school's registration costs with the approval of the sponsor.

5. Founding Sponsor, a gift minimum of \$75,000

A founding sponsor would be provided with maximum exposure at all Ethics Olympiads, Junior School, Middle School and Senior School events over the life of the Ethics Olympiad. This would include all events, including Training Camps, Regional and Australasian finals etc. We will also include a summary outline during the day about Founding Sponsors as part of a final presentation to Eth-letes and Coaches at all events, briefly outlining what is on offer at the sponsoring institution. This level of sponsorship would also include a named Scholarship (in the name of the sponsor) made available to a school, or schools to cover any Ethics Olympiad membership costs and registration costs for a school chosen by the sponsor over 5 years.

If you are interested in supporting the Ethics Olympiad or inquiring about other opportunities of support, please [contact](#) the Ethics Olympiad Manager or call 0400029660. The Ethics Olympiad offers several sponsorship levels to help advance its mission and vision. If you cannot financially give, consider volunteering as a judge at a Regional Competition or at the Australasian Ethics Olympiads.
